

Meeting Announcement – May 29, 2008

Water Industry's Role in Reducing Greenhouse Gasses and Promoting Energy Savings

Members of the State's Water Energy Climate Action Team (WETCAT) will present recommendations of their year long assessment of strategies to help California reach the greenhouse gas reduction targets outlined in AB 32. WETCAT's next steps will be to refine strategies prior to CARB's and workshops across the State this summer. In the fall CARB will release its final document and approve the implementation path for AB 32.

WETCAT presenters:

Fran Spivy-Weber, State Water Resources Control Board

Lorriane White, California Energy Commission

Mark Cowin, State of California Department of Water Resources

Jon Costantino, California Air Resources Board Office of Climate Change

The agencies serving on WETCAT include DWR, SWRCB, California Energy Commission, California Public Utilities Commission, California Department of Conservation, California Resources Agency, CalEPA and CALFED.

Local efforts to reduce greenhouse gasses through energy and water conservation will be presented by:

Kirstie Moore, Sonoma Mountain Village

Grant Davis, Sonoma County Water Agency

***Location: North Coast Regional Water Quality Control Board
5550 Skylane Blvd., Santa Rosa, CA 05493***

Time: 1-3 pm, Refreshments will be provided

For questions please contact Amy Bolten, Sonoma County Water Agency, 707-547-1981
